

Headington Quarry Foundation Stage School

Statement for Religious Education

Our aim is to create opportunities for children to become aware of and begin to understand the different religious beliefs and cultures they will encounter in a Christian and multi-faith society. We aim to recognise and value the children's and families' different backgrounds, encouraging children to have an awareness of spirituality and a reverence for the natural and created world.

Reception/F1 year

In children's Reception Year, for the children on St. Andrew's roll, or when children reach statutory school age in Nursery School, they will take part in a daily act of collective worship.
